

***CONSTRUCTION OF MOULDS
FOR HIGH PRECISION PLASTIC
AND DIE CAST TECHNICAL
PRODUCTS - MADE IN ITALY***

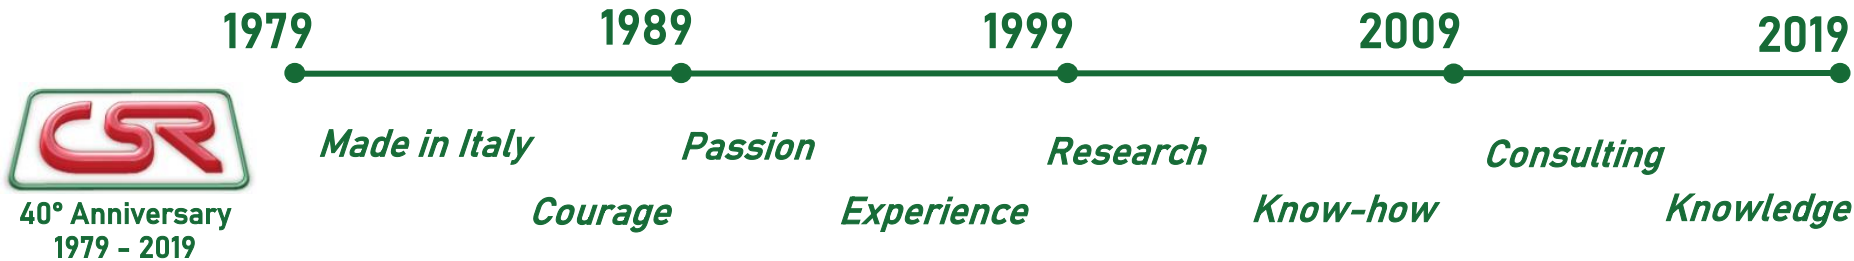

COMPANY PROFILE

WHO WE ARE

We are an Italian Company, specialised in construction of moulds for high precision plastic and die cast technical products. The company was born in 1979, thanks to the courage and the passion of three brilliant guys; two of them are still present and praise the same passion and a more growing and proved experience in this field.

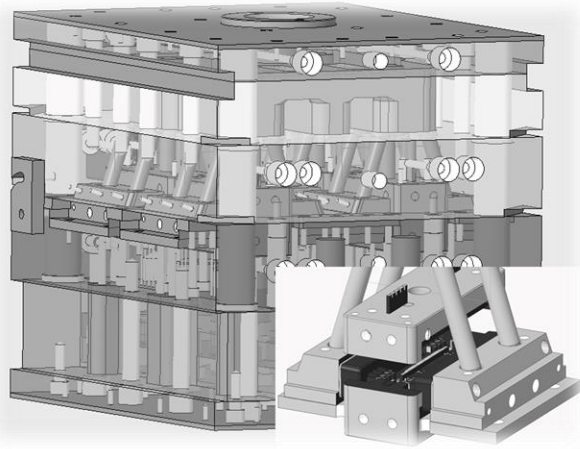

WHERE WE ARE

We are in „Brianza“, ca. 30 km from Milan and 20 km from Como Lake. Our area is well known for many italian leading industries, among which the engineering and furniture ones.

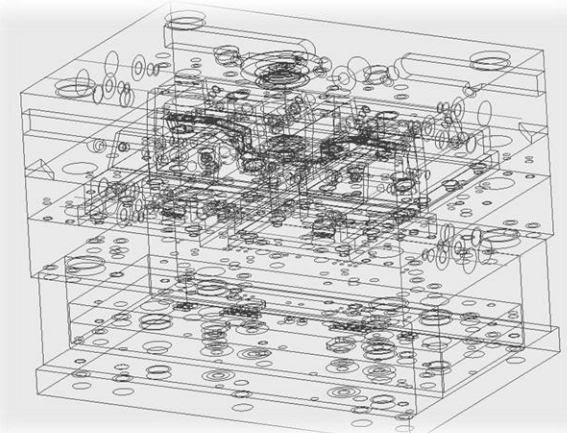

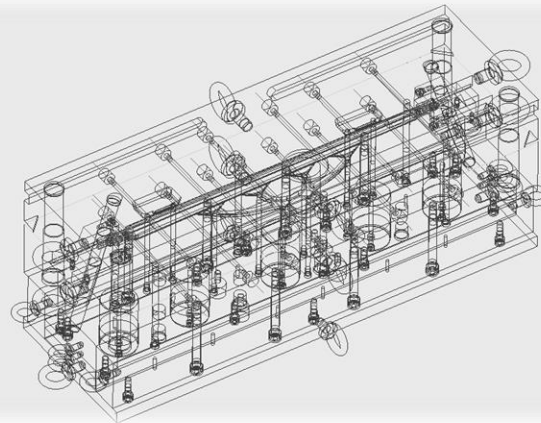

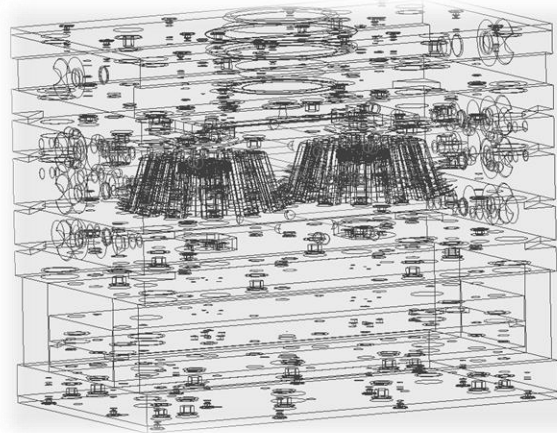

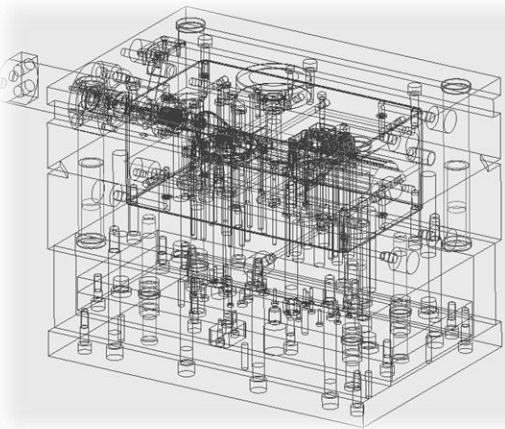

40° Anniversary
1979 - 2019

TECHNICAL OFFICE

- ❖ Qualified collaborators with 40 years experience in moulds field
- ❖ A young architect with innovative knowledge in the design field
- ❖ The most modern 3D softwares, among which Creo 6
- ❖ Personalized projects and consulting
- ❖ Possible realising of casted articles as per drawing
- ❖ Possible providing of drawings without production
- ❖ Possible production of articles as per clients' drawing
- ❖ Milling, wire and sink EDM working

MACHINERY

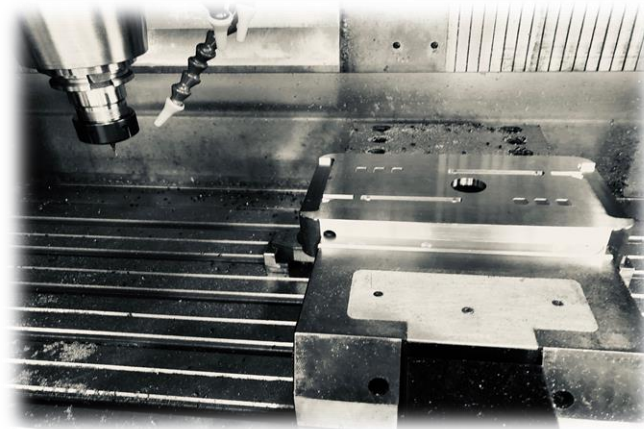

- ❖ High speed millings on 5 continuous axes
- ❖ Sink EDMs on 4 axes
- ❖ Wire EDMs on 5 axes
- ❖ Tangential grinding on 6 axes
- ❖ Internal and external grinding on 5 axes
- ❖ Computer controlled lathing

PRODUCTION DEPT.

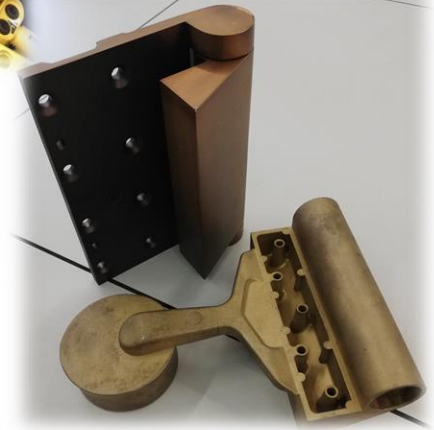

The production Dept. works closely with technical one, guaranteeing a persistent materials quality control and following every working step: from client contact to final one and customer care.

Beyond mould production, we are able to provide milling, wire and sink EDM workings.

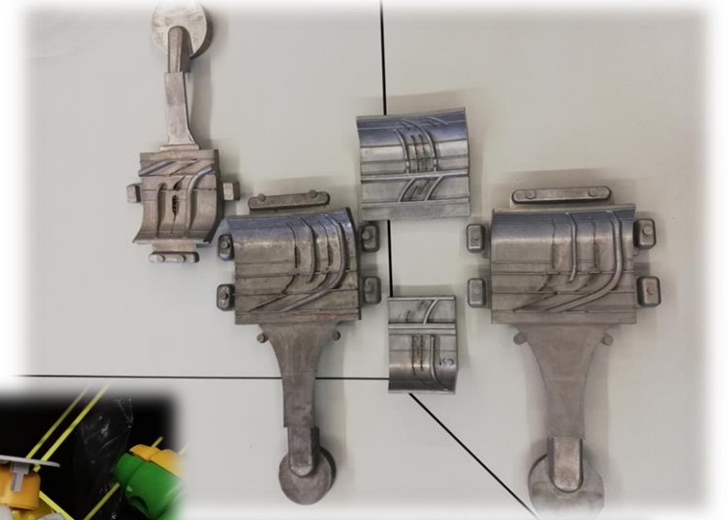

MOULDS FOR DIFFERENT FIELD (1)

- ❖ Electronic
- ❖ Cosmetics
- ❖ Small parts
- ❖ Motor
- ❖ Tyres
- ❖ Furniture

CONNECTOR COLLECTION

Our never-ending research and development in innovation field has led us to design a cutting-edge joint system. We have developed and patented different types of zamak joints which can be assembled, disassembled and are versatile in usage fields: from design items to fair displays and furniture for commercial and residential projects.

We have realized the moulds for these connector system and and we are able to provide the casted pieces, disassembled and rough or varnished and mounted.
